SUMMARY

I am seeking the position of software developer to work in a challenging and fast-paced environment where I seek to grow while constantly developing my own skills and abilities

EDUCATION

Computer science Ain shams University

Bachelor's Degree in Computer Science Graduate in 2022

Graduation Project

using deep learning to identify if a case is cancerous or not, classify it as benign, malignant, etc., using deep learning, and segmenting the tumor's position on a CT image.

Tools : {tensorflow,keras,pytorch,...etc} => [Code](#)

EXPERIENCE

.Net web development at (ITI)

MAY 2021 to August 2021

I learned C# advanced ,OOP, entity framework and LINQ , SQL SERVER ,API , MVC

React-Native at Penta Value.

Aug 2021 to oct 2021

I learned react hooks (useState,useEffect, useReducer,useMemo,use callback) ,manage global state with (react context, redux) ,-create react component and pass data with props to this component

PROJECTS

ECommerce | React ,CSS,JS => [Code](#)

I do this with some HTML, CSS, and JavaScript, and familiarity with the front-end (React) framework and libraries react hooks (useState, use effect) react component and pass data with props to this component).

Movie-guide | C#

I built the movie app, added the movie to the app, and updated the information if the movie had already been loaded using XML files.

Carpooling mini-System | java

I built them all It is a system people use to book car travel, subscribe to the application, and search for cars that go the same route as the customer, and perhaps provide a customer with a subscription discount). It doesn't use a graphical user interface.

Fitness application | java, android studio

a fitness application that provides a list of meals with specific calories, exercises, water, and steps count

Educational app | java

I built the design, and part of the implementation class instructor has some personal data; this includes adding material and sending notifications for students, and the section adds material chosen from the desktop.

TOOLS

Git and Github Agile
Oracle SQLserver VS Code

NOTE

Completed military service

SKILLS

Familiar with .net with skills (Linq , entity framework ,api ,mvc).
Problem solving with algorithms. Languages: Java,C#, Python, C++.
machine learning concepts and algorithms. react , css , js , html
Object-oriented programing ,Data structures. Clean Code , debugging
Database Design (ERM). Analytical Thinking
Communication Skills, Teamwork
